Soziale Verantwortung – Aktive Hilfe

***Funding amount 2,350 euros***

*Our donation is intended to support needy-, street- and migrant children at the Schutzengelhaus Berlin Steglitz through participation in leisure activities, games and creativity and joint ventures.*

*The "angels" lift the children out of their isolation through no fault of their own, build and strengthen their often low self-esteem and integrate them into a social environment. The guardian angels strengthen their gifts and talents, promote their education and improve the children's future opportunities.*
